- Wordpress

PROFESSIONAL EXPERIENCE

Full Stack Developer

Simplon Mali| February 2022 - September 2022

Design and production of a web application for managing and booking flights

I realized alone a flight management and booking web application using PHP and JavaScript languages and the Laravel Framework, JQuery, React and Bootstrap.

Design and implementation of an application for the management of an online tontine

As a team of 3 people, we created a web application for the management of a tontine using the tools Figma, Git, Trello, GitHub, the languages PHP, Javascript and the Framework Bootstrap and Symfony.

Creation of an e-commerce website with Wordpress

I realized alone an e-commerce site with Wordpress and Elementor for a merchant while respecting the graphic charters and using the agile method.

Design and implementation of an application for the management of a Clinic

Still in a team of 6 people, we made the prototype and the design with Figma using the tools Git, Trello, GitHub, then made the front-end and the back-end with the JavaScript and PHP languages as well as the Bootstrap Framework.

Design and Layout of Youtube UI

As a team of 6 people, we created the Front-end of Youtube using HTML, CSS, Bootstrap and JavaScript.

Creation of a CV in HTML and CSS

My first project was to create a personal resume using HTML and CSS.

Customer manager

Orange Mali S.A| August 2020 - December 2021

I was a customer manager at Orange Mali, notably managing the opening of mobile electronic money accounts (Orange Money) and changing 3G to 4G chips for Orange subscribers.
